Don't see any new Advantage users in your neighborhood? Please spread the word to your local peers. Many clinics are still on old, out-dated software products. Tell them about this great product you are using to manage your clinic and how easy to use it is. Client referrals are our best source for new users. The more users of Advantage we get, the better the product will continue to become. With each new install we get new and different ideas for improving the product.

Computer Hardware Update

We frequently get calls from users asking what are the current hardware requirements for Advantage and what we are recommending. If you are shopping for new equipment, here are computer specifications for computers that we are currently supplying:

Intel Pentium 4 processor at 3.0 – 3.4 Ghz
512MB memory
80GB serial ATA hard drive
Integrated 10/100/1000mbs network card
15" or 17" LCD flat panel monitor
CD/RW drive
Optical (no rollerball) mouse
Windows XP Professional operating system

Please call our office with any specific hardware requirement questions that you have.

From the Desk of My Son

The Procrastinator's Creed:

1. I believe that if anything is worth doing, it would have been done already.
2. I shall never move quickly, except to avoid more work or find excuses.
3. I will never rush into a job without a lifetime of consideration.
4. I shall meet all of my deadlines directly in proportion to the amount of bodily injury I could expect to receive from missing them.
5. I firmly believe that tomorrow holds the possibility for new technologies, astounding discoveries, and a reprieve from my obligations.
6. I truly believe that all deadlines are unreasonable regardless of the amount of time given.
7. I shall never forget that the probability of a miracle, though infinitesimally small, is not exactly zero.
8. If at first I don't succeed, there is always next year.
9. I shall always decide not to decide, unless of course I decide to change my mind.
10. I shall always begin, start, initiate, take the first step, and/or write the first word, when I get around to it.
11. I obey the law of inverse excuses which demands that the greater the task to be done, the more insignificant the work that must be done prior to beginning the greater task.
12. I know that the work cycle is not plan/start/finish, but is wait/plan/plan.
13. I will never put off until tomorrow, what I can forget about forever.
14. I will become a member of the ancient Order of Two-Headed Turtles (the Procrastinator's Society) if they ever get it organized.
