Get the Most Out of Your System

Vetech Software Services, Inc. (800) 677-8832

Welcome New Users!!!

We are off to another very busy year with lots of new users. We would like to welcome the following new clinics to the VETECH Advantage user family. As usual, our new users represent a very diverse group both in geography and practice types indicating just how flexible your Advantage software is. Notice all the non US clinics taking advantage of the weak US dollar and upgrading their software.

Solasassa Veterinary - Sarasota, FL
Hudson Animal Hospital – Hudson, MA
Creekside Veterinary – Murphysboro, IL
Reagan Equine – Wilmington, NC
Belvidere Family Pet – Belvidere, IL
Prestage Equine – Camden, SC
Circle City Animal - Corona, CA
Southern Colorado Spay & Neuter - Pueblo, CO
Chatahoochee Vet, Cleveland - GA
Aina Hou Animal Hospital – Kamuela, HI
Spartan Veterinary Services – Aguanga, CA
Performance Equine Dentistry – Chehalis, WA
Warm Animal Hospital – Cincinnati, OH
Allegheny Equine – Elkins, WV
Amy Halaburt, DVM – Hebron, IN
Wendy Biggs, DVM – Archer, FL
Warren’s Thoroughbreds – Hemet, CA
Sundance Animal Hospital – Tolleson, AZ
Cedar Creek Veterinary – Wanette, OK
South Sarnia Veterinary – Sarnia, ONT Canada
South Coast Equine – Santa Barbara, CA

Don't see any new Advantage users in your neighborhood? Please spread the word to your local peers. Many clinics are still on old, out-dated software products. Tell your peers about the great product you are using to manage your clinic and how easy to use it is. Client referrals are our best source for new users. The more users of Advantage we get, the better the product will continue to become. With each new install we get new and different ideas for improving the product.

Email

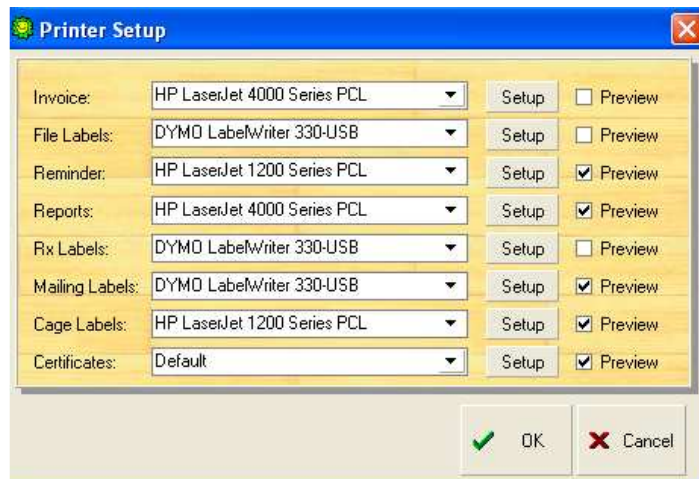

If you would like to be added to our E-mail address book to receive information and updates electronically, please send an email to info@vet-software.com and include your name and practice name.

Print Preview Option

Many users just assume that every report in Advantage is displayed to the screen first and to actually print a report you need to click the printer icon in the upper left part of the print preview window. Actually displaying reports to the screen (print preview mode) is an option for all reports, labels, etc. in Advantage. You can customize your printing options to suit your needs at each workstation.

Typically in a busy reception area, it makes sense to send invoices to the printer as quickly as possible and bypass any preview to the screen. Also with prescription labels it is unusual to preview these prior to printing them. But in that same reception area when you print reports at the end of the day, it might be nice to view them on the screen before you decide to print it.

All of these options are quick and easy to setup in Advantage on a computer by computer basis. The printer settings for the reception area, Dr. office, and treatment area can all be different. Start by clicking on the File/Printer setup menu.

To select or de-select preview mode for any printing task, just click or unclick the Preview checkbox on the right side of the printer setup window. You can experiment with different options until you find a combination that works for you.
