## ANTECH Interface Available Now

We're thrilled to let you know that our ANTECH integration is currently available for all users! Now you can easily create ANTECH lab requests right from your Advantage Software. These orders are then submitted electronically to ANTECH and the results can be downloaded directly into Advantage. The ANTECH request can also be setup to automatically add a line to the invoice to help avoid missed charges.

This integration is sure to make your practice more efficient, significantly reduce the amount of paperwork and help to ensure all lab tests are properly invoiced. If you are interested in utilizing this interface, please contact our office for the most recent Advantage update that includes ANTECH Online.
